

APPLICATIONS

This kit is designed to convert most recessed fluorescent 1x4, 2x2 and 2x4 troffers and parabolics to long-life and efficient LED technology. These kits provide everything required to enhance the performance and energy savings of your recessed fixture while minimizing labor, clean up and expense. Kits include high-reflectance reflector with driver, LED boards and tek screws for easy assembly. Kits install with simple hand tools in minutes.

FEATURES & BENEFITS

- ◆ Constant Current LED Driver
- ◆ Input Voltage: 120-277V AC
- ◆ Input Frequency: 50/60Hz
- ◆ Reflectors are precision formed and high performance
- ◆ ETL_{us} Listed for damp locations
- ◆ DLC listed in certain models

SPECIFICATIONS

The RKT-LED retrofit kits mount easily, requiring only simple hand tools. The process includes removal of the existing ballast cover(s) and removal of the existing socket brackets and ballast. The driver is attached to the backside of the reflector.
