

**APPLICATIONS**

The end cap bath bar series of diffuser assemblies allow the lighting designer and manufacturer to produce a cost effective, yet elegantly styled luminaire.

**FEATURES & BENEFITS**

- ◆ Range of colors available from basic opaque white to a family of marble effects.
- ◆ Diffusers give the appearance of frosted glass or marble grains or a variety of opaque faux marble finishes
- ◆ 1 or 2 lamps

**SPECIFICATIONS**

The diffuser assembly consists of a solid white, clear, fluted or white fluted profile mated to a choice of end cap sizes and colors. We have expanded the range of offerings on the End Cap Bar to include a new frosted ribbed diffuser. The new diffusers give the appearance of frosted glass, while maintaining the shipping and usage durability of acrylic. The diffuser is available with full range of standard caps, narrow caps, inclusive of all marble colors and trim options. We can develop a custom end cap color, shape or custom profile for proprietary applications if requested by the manufacturer.
