- **WARNINGS** | This product must be installed in accordance with all applicable codes by a person familiar with the product.
 - · Each fixture must be **properly supported** during install.
 - **DO NOT** join fixtures on the floor prior to lifting, or damage will occur.
 - · Before beginning installation, review our complete list of warnings by visiting www.saylite.com/warnings.

L23CH Installation Instructions **Step 1 -** Mounting and Suspension

Mounting

Drywall or other hard surfaces - 2X4 Stud Bracing

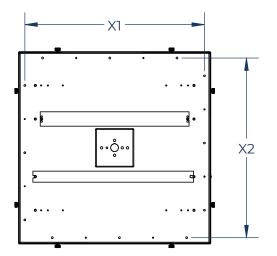

- · Install bracing at desired location.
- · Ensure bracing is secure.
- · Prepare fixture for mounting.

*Other hard surfaces include: wood, sheet metal panels, steel beams, concrete or masonry. Use hardware appropriate for each surface and material type.

Suspension Locations

X = Suspension Dimensions

Refer to Assembly Drawings and building plans to determine exact mounting, suspension points, and power feed locations.

Form MCM - MOB-L23CH, V1, 09/20

L23CH Installation Instructions

Step 2 - Identification and Preparation

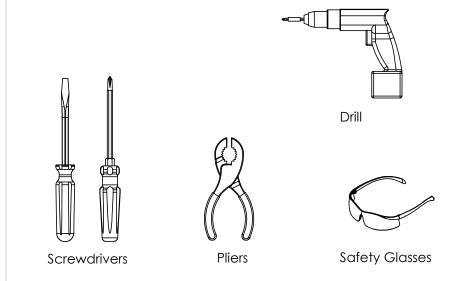

MOBERN

A. Identify Fixtures

- Use labels found on the box and inside the fixture bodies to identify bodies.
- · NOTE: Locations of labels can vary.
- · Remove all fixtures from their boxes.
- · Organize fixtures based on their labels at the install location.

B. Tools Needed

- $\cdot\;$ Always use proper safety equipment when installing fixtures.
- Tools shown are recommended for standard install. Tools needed may vary based on actual install location conditions.

Kitted Hardware

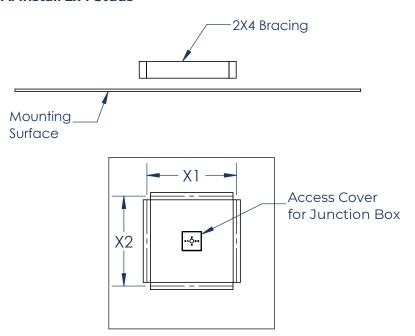

- Saylite has provided the items listed here, with their Saylite part numbers listed. These items can be found in separate boxes shipped with the fixture.
- Ensure all parts are accounted for and set them aside until needed.
- Any additional hardware needed for this installation will be provided by others.

L23CH Installation Instructions

Step 3 - Install Bracing

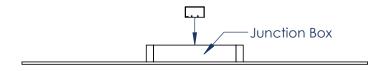

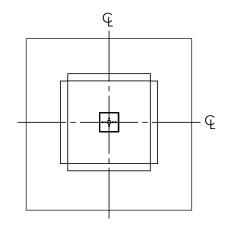

A. Install 2x4 Studs

- Install the 2X4 stud square bracing to the mounting surface.
- Ensure the bracing is spaced so that fixture mounting points are centered on 2X4 studs.
- **NOTE:** Bracing must be able to support full weight of fixture, be sure to fully secure bracing.

B. Install Junction Box

 Install junction box to mounting surface, centered within 2X4 stud bracing.

L23CH Installation Instructions

Step 4 - Install Mount Plate

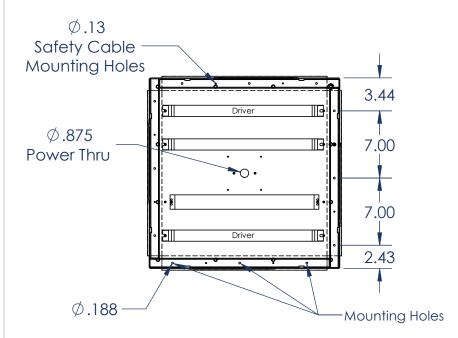

A. Align with Bracing

• Before installing the mount plate, ensure it is aligned with the 2X4 stud bracing above the mounting surface.

B. Secure to Bracing

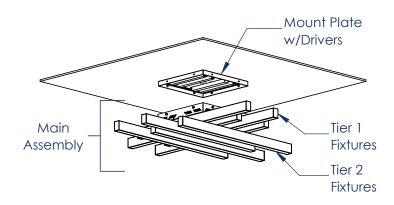

- Use 3" #8 wood screws (not provided) or equivalent to secure the mount plate to the 2X4 stud bracing.
- · Mounting holes are located along the perimeter of the mount plate.
- Ensure that mount plate is fully secured before proceeding to next step.
- Pull the power cable thru the 7/8" hole in the center of the mount plate.

L23CH Installation Instructions

Step 5 - Install Fixture

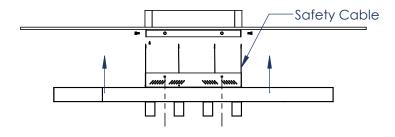

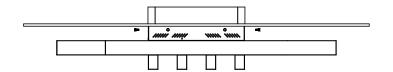

A. Join Fixture Connectors

- NOTE: This fixture will require two (2) people to install due to the weight of the fixture. DO NOT attempt to install alone.
- Join the orange connectors from the main assembly to the mount plate.
- The orange connector for tier 1 fixtures will be labeled TI and should be joined to the corresponding orange connector on the mount plate. The orange connector for tier 2 fixtures will be labeled T2 and should be joined ot the corresponding orange connector on the mount plate.

B. Install to Mount Plate

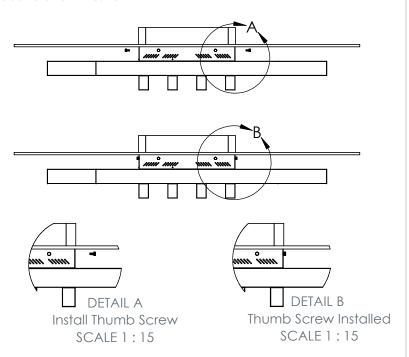

- Once the connections for the fixtures are joined the fixture can be installed. Use #8-32 sheet metal screws to attach safety cables (4x) to attached mounting plate assembly.
- Align the fixture with the mount plate and install to mounting surface, ensuring that holes on the fixture box align with holes on mount plate.

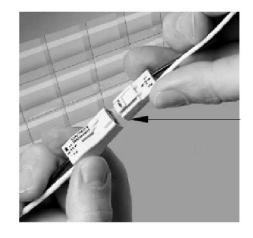

L23CH Installation Instructions **Step 6 -** Secure and Wire the Fixture

MOBERN

A. Secure the Fixture

WIRING LEGEND		
BLACK	HOT	Line Voltage
WHITE	NEUTRAL	Line Voltage
GREEN	GROUND	
GRAY	DIMMING	0-10V DC
VIOLET	DIMMING	0-10V DC

- Once the fixture is installed, use the provided thumb screws to secure the fixture to the mount plate.
- · Tighten each thumb screw to secure fixture.

- Wire each fixture to the incoming power supply using the provided quick disconnect clip as shown.
- · For dimming option, refer to wiring legend above.
- Use UL approved connectors only. Follow all local, state and national codes. Repeat for all remaining fixtures.
