

- **WARNINGS** | This product must be installed in accordance with all applicable codes by a person familiar with the product.
 - · Each fixture must be **properly supported** during install.
 - **DO NOT** join fixtures on the floor prior to lifting, or damage will occur.
 - Before beginning installation, review our complete list of warnings by visiting www.saylite.com/warnings.

Step 1 - Mounting and Suspension

Mounting

Drywall or other hard surfaces - GT-310/315 Hanging Kit*

- · Install hanging kits at suspension locations.
- Ensure hanging kits are secure.
- · Prepare fixture for mounting.

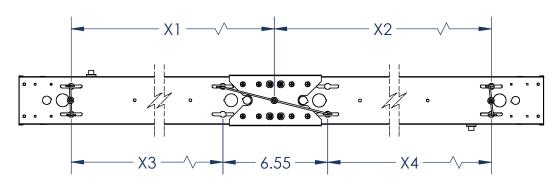

Other hard surfaces include: wood, sheet metal panels, steel beams, concrete or masonry. Use hardware appropriate for each surface and material type.

Suspension Locations

X = Suspension Dimensions

Refer to Assembly Drawings and building plans to determine exact mounting, suspension points, and power feed locations.

Hanging Kit Distances

Keyway Distances

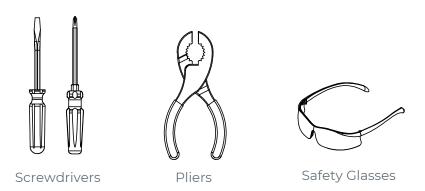

Step 2 - Identification and Preparation

A. Identify Fixtures

B. Tools Needed

- Use labels found on the box and inside the fixture bodies to identify bodies.
- · NOTE: Locations of labels can vary.
- · Remove all fixtures from their boxes.
- · Organize fixtures based on their labels at the install location.
- · Always use proper safety equipment when installing fixtures.
- Tools shown are recommended for standard install. Tools needed may vary based on actual install location conditions.

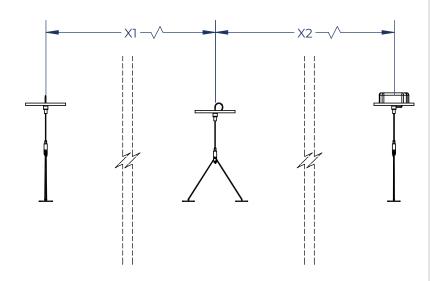

Kitted Hardware

- Saylite has provided the items listed here, with their Saylite part numbers listed. These items can be found in separate boxes shipped with the fixture.
- Ensure all parts are accounted for and set them aside until needed.
- Any additional hardware needed for this installation will be provided by others.

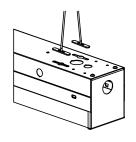

Step 3 - Mount the Beginner Fixture

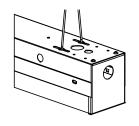

A. Install Hanging Kits

B. Hang Beginner Fixture

INSTALLED

- Install the hanging kits to the ceiling at the desired mounting locations.
- · Ensure that hanging kits are properly secured.
- · Refer to hanging kit installation guide for more information.
- Insert the paddles to the keyways located on the back side of the fixture.
- · Rotate the paddles vertically to slide them into the keyways.

Step 4 - Mount the Joiner Fixture(s)

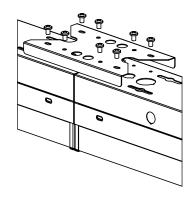

A. Connect Wiring

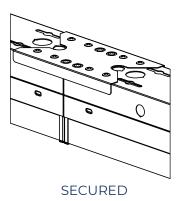

WIRING LEGEND			
BLACK	НОТ	Line Voltage	
WHITE	NEUTRAL	Line Voltage	
GREEN	GROUND		
GRAY	DIMMING	0-10V DC	
VIOLET	DIMMING	0-10V DC	

- Connect the wiring between fixtures using the provided wiring harness.
- Ensure wire colors between fixtrures are matching before connecting harness.
- · Refer to wiring legend above for more information.

B. Secure Joiner Bracket

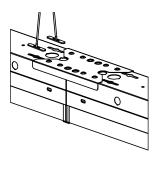

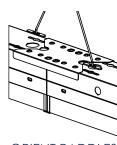

- Use the provided #8 screws to secure both fixtures to the joiner bracket.
- Ensure screws are tight and bracket has aligned both fixtures before proceeding.

Step 4 - Mount the Joiner Fixture(s)

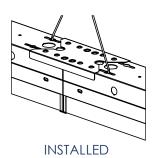

C. Hang Joined Fixtures

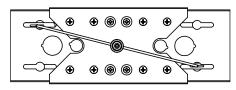

ORIENT PADDLES

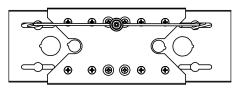

- Remove the paddles from the previous fixture and orient the paddles diagonally across the joiner bracket.
- Install the paddles to the correct keyways to hang the joined fixtures.

D. Ensure Correct Orientation

CORRECT

INCORRECT

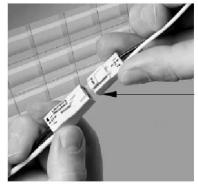

- · Refer to the diagram above when hanging joined fixtures.
- Ensure paddles are inserted to keyways that are diagonally across from one another.
- · Repeat Step 4 as needed to install remaining fixtures

Step 5 - Power and Level the Fixtures

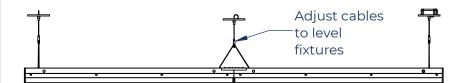

A. Power the Fixtures

WIRING LEGEND		
BLACK	НОТ	Line Voltage
WHITE	NEUTRAL	Line Voltage
GREEN	GROUND	
GRAY	DIMMING	0-10V DC
VIOLET	DIMMING	0-10V DC

B. Level the Fixtures

- Wire fixtures to the incoming power supply using the provided quick disconnect clip as shown.
- · For dimming option, refer to wiring legend above.
- Use UL approved connectors only. Follow all local, state and national codes.
- · Adjust the hanging cables to ensure the fixture is level if needed.
- · Snip excess cable.
- · Fixture installation is now complete.
